

## 4.4 Kit for conduction unit type LKE300VT-KM32-GH3

### Multiple test unit with 16 bonding pairs

Multiple test unit in a polycarbonate case with the dimensions 255 x 180 x 50 mm, (cover plate 295 x 220 x 3 mm) with 32 bonding modules of the LKV-D4-F/WK type.

Arranged in two rows of 16 modules each for multiple testing of electronic modules.

It also integrates a magnetic valve opening all bonding modules in case of the „test finished“ test signal. Defective modules have been previously removed by opening with the module individual buttons.

Electrical connections using Sub-D connectors.
